

# From Seed to Plant

Facilitated Field Trip experience for Preschoolers

## Facilitated Field Trip Highlights

- 75-min. outdoor program includes four hands-on learning activities
- Revamped Pre-K specific curriculum
- Experiential learning lead by IBG Educators

## From Seed to Plant Field Trip Experience

- Students will learn about concepts and then participate in hands-on activities that align with the Idaho Early Learning Guidelines.

### Activity 1: Plant Life Stages

- Students will learn about the four life stages of a plant and then act them out as a group.

### Activity 2: Seed Sorting

- Students will learn about what it takes to make a seed grow and then sort three different types of seeds using tweezers.

### Activity 3: Song and Planting

- Students will sing a song about how plants grow and then plant a seed in the Garden.

### Activity 4: Read a Story

- Students will listen to a story about what plants need to grow and recall the four life stages of a plant.
