

From Seed to Plant

Facilitated Field Trip Experience for Preschoolers

Facilitated Field Trip Highlights

- 90 min outdoor program includes 75 min of experiential learning activities and 15 min of free exploration.
- Revamped Pre-K specific curriculum.
- Experiential learning led by IBG Educators.

From Seed to Plant Field Trip Experience

- Students will learn about concepts and then participate in hands-on activities that align with the Idaho Early Learning Guidelines.

Activity 1: Plant Life Stages

- Students will act out the four life stages of a plant in a group.

Activity 2: Seed Sorting

- Students will sort three different types of seeds using tweezers and discuss what a seed needs to grow.

Activity 3: Song and Planting

- Students will sing a song about how plants grow and plant a seed in the Garden.

Activity 4: Read a Story

- Students will listen to a story about plants and recall the four plant life stages.
